HEDI LEDCUBE

Work luminaire HEDI LED Cube:

Perfect illumination at five positions!

Each of the four side sections of the HEDI LED Cube features a different inclination angle. This allows positioning the HEDI LED Cube in five deflection positions with inclination angles from 0-90 degree.

The LED Cube from HEDI is available in two versions:

35 Watt: Article No. AL35LED

35 Watt with emergency light function:
Article No. AL35LEDN

Uniform large-surface light diffusion, strong luminous efficiency and variable use: This is what the industry and trade have always wanted a work luminaire to be. And now this luminaire. New from HEDI, with innovative design – top quality made in Germany, from the housing to the LEDs.

Come to know the difference. Contact your HEDI specialist dealer now!

Technical highlights:

- **Strong light output**
35 Watt with LED luminous flux of 110 Lumen / Watt.
- **Large-surface illumination**
based on a special arrangement of the LEDs and a large beam spread of 120 degree.
- **Absolute glare-free and low-shadow light**
through specially developed front panel.
- **Concentration-supporting optical sound and optimal colour behaviour**
because of the light colour "Work White" with 6.500 Kelvin.
- **Controls**
Socket, On/Off switch and fine fuse for electronics on rear.

Application highlights:

- **Robust and durable**
through housing from fibreglass-reinforced plastic with sprayed on rubberised protective edges and positioning surfaces.
- **Variable use**
to be placed in five positions, for suspension and fixing on a tripod.
- **High work safety**
through optional emergency light function in battery mode (luminous period min. 2 hours).
- **Energy efficiency**
Class A.
- **Easy transport**
through handle integrated in housing.

Simple suspension with standard HEDI CableFix supplied

Accessories: Adapter joint for tripods (Art. No. 9076)

Rugged housing with rubberised edges
